MASTER CONTACT LIST - OTTAWA-CARLETON, February, 1985

Introduction:

This short volume contains listings of community organizations in the Ottawa-Carleton Region which are:

1) known to the authors
2) membership-based (either based on individual members, group members, or both), and
3) utilize some of their resources influencing local policy-making.

The Public Participation Group wishes to thank the listed organizations for their assistance in keeping us up to date with information about themselves, and the staff of the local municipalities who have shared their specialized knowledge of groups within their borders.

How to Use This List:

All listing are in alphabetical order. Since we are using a microcomputer, we must live with its idea of order. That means:

- numbers precede letters
- capital letters precede small letters
- watch names with punctuation; periods precede letters, hyphens follow.

Also, some association names do not start with their most descriptive term (such as "Association of Residents of Orleans Woods" instead of starting their name "Orleans Woods..."). We have tried to cross reference most of these in a separate list at the end. Two fields have been added to further assist the reader in finding groups: 1) TYPE and 2)GEO-CODE. These are described below.

NOTE: Try not to use the office/work phone numbers, except where the organization has its own office. Otherwise you will be phoning a volunteer at a location not connected with the organization they represent on the list.

TYPE:

## Revising Information

Since this list is not based on any mandatory registration procedure, there is no guarantee that it is complete or accurate. Within the limited resources of the Public Participation Group, information is checked before inclusion. This list will grow in accuracy and completeness as its use grows.

Now that it is on a microcomputer in our office and under our control, 1) updating will be faster and more accurate, and 2) the information will be available in more forms. In short, if you have information to add or need more recent information than you find here, just give us a call. Likewise, for a copy of this list or for a list of the other publications of the Planning Department, call us, drop in, or drop us a line. We also have a map with the boundaries of these associations plotted for reference.

Let us know of ways that this list can be made more useful for your needs.
